AM

In addition to our extensive range of cosmetic mirrors, we offer you the alternative of quite individual models in genuine manufactured quality.

Make your own personal model of three different mirror sizes, two magnification levels, two different articulated arms or a dimensionally flexible base .

Then decide on a galvanic or painted surface. And if you like, we will complement your logo by laser engraving.

Let us know your individual wishes or special requirements.

For a personal consultation about our manufactory cosmetic mirrors please call our Frasco sales team on weekdays from 8:00h - 16:00h at +49 (0)9126 2561-0.
